### **Geological Society books refereeing procedures**

The Society makes every effort to ensure that the scientific and production quality of its books matches that of its journals. Since 1997, all book proposals have been refereed by specialist reviewers as well as by the Society's Books Editorial Committee. If the referees identify weaknesses in the proposal, these must be addressed before the proposal is accepted.

Once the book is accepted, the Society Book Editors ensure that the volume editors follow strict guidelines on refereeing and quality control. We insist that individual papers can only be accepted after satisfactory review by two independent referees. The questions on the review forms are similar to those for *Journal of the Geological Society*. The referees' forms and comments must be available to the Society's Book Editors on request.

Although many of the books result from meetings, the editors are expected to commission papers that were not presented at the meeting to ensure that the book provides a balanced coverage of the subject. Being accepted for presentation at the meeting does not guarantee inclusion in the book.

More information about submitting a proposal and producing a book for the Society can be found on its website: [www.geolsoc.org.uk](http://www.geolsoc.org.uk).

It is recommended that reference to all or part of this book should be made in one of the following ways:

HUUSE, M., REDFERN, J., LE HERON, D. P., DIXON, R. J., MOSCARIELLO, A. & CRAIG, J. (eds) 2012. *Glaciogenic Reservoirs and Hydrocarbon Systems*. Geological Society, London, Special Publications, **368**.

VAN DER VEGT, P., JANSZEN, A. & MOSCARIELLO, A. 2012. Tunnel valleys: current knowledge and future perspectives. In: HUUSE, M., REDFERN, J., LE HERON, D. P., DIXON, R. J., MOSCARIELLO, A. & CRAIG, J. (eds) 2012. *Glaciogenic Reservoirs and Hydrocarbon Systems*. Geological Society, London, Special Publications, **368**, 75–97. First published online May 3, 2012, <http://dx.doi.org/10.1144/SP368.13>.

## THE GEOLOGICAL SOCIETY

The Geological Society of London (GSL) was founded in 1807. It is the oldest national geological society in the world and the largest in Europe. It was incorporated under Royal Charter in 1825 and is Registered Charity 210161.

The Society is the UK national learned and professional society for geology with a worldwide Fellowship (FGS) of over 10 000. The Society has the power to confer Chartered status on suitably qualified Fellows, and about 2000 of the Fellowship carry the title (CGeol). Chartered Geologists may also obtain the equivalent European title, European Geologist (EurGeol). One fifth of the Society's fellowship resides outside the UK. To find out more about the Society, log on to [www.geolsoc.org.uk](http://www.geolsoc.org.uk).

**The Geological Society Publishing House** (Bath, UK) produces the Society's international journals and books, and acts as European distributor for selected publications of the American Association of Petroleum Geologists (AAPG), the Indonesian Petroleum Association (IPA), the Geological Society of America (GSA), the Society for Sedimentary Geology (SEPM) and the Geologists' Association (GA). Joint marketing agreements ensure that GSL Fellows may purchase these societies' publications at a discount. The Society's online bookshop (accessible from [www.geolsoc.org.uk](http://www.geolsoc.org.uk)) offers secure book purchasing with your credit or debit card.

To find out about joining the Society and benefiting from substantial discounts on publications of GSL and other societies worldwide, consult [www.geolsoc.org.uk](http://www.geolsoc.org.uk), or contact the Fellowship Department at: The Geological Society, Burlington House, Piccadilly, London W1J 0BG: Tel. +44 (0)20 7434 9944; Fax +44 (0)20 7439 8975; E-mail: [enquiries@geolsoc.org.uk](mailto:enquiries@geolsoc.org.uk).

For information about the Society's meetings, consult *Events* on [www.geolsoc.org.uk](http://www.geolsoc.org.uk). To find out more about the Society's Corporate Affiliates Scheme, write to [enquiries@geolsoc.org.uk](mailto:enquiries@geolsoc.org.uk).

# Contents

HUUSE, M., LE HERON, D. P., DIXON, R., REDFERN, J., MOSCARIELLO, A. & CRAIG, J. Glaciogenic reservoirs and hydrocarbon systems: an introduction	1
SCHACK PEDERSEN, S. A. Glaciodynamic sequence stratigraphy	29
OTTESEN, D., DOWDESWELL, J. A., RISE, L. & BUGGE, T. Large-scale development of the mid-Norwegian shelf over the last three million years and potential for hydrocarbon reservoirs in glacial sediments	53
VAN DER VEGT, P., JANSZEN, A. & MOSCARIELLO, A. Tunnel valleys: current knowledge and future perspectives	75
MOREAU, J., HUUSE, M., JANSZEN, A., VAN DER VEGT, P., GIBBARD, P. L. & MOSCARIELLO, A. The glaciogenic unconformity of the southern North Sea	99
MÜTHER, D., BACK, S., REUNING, L., KUKLA, P. & LEHMKUHL, F. Middle Pleistocene landforms in the Danish Sector of the southern North Sea imaged on 3D seismic data	111
ANDERSEN, T. R., HUUSE, M., JØRGENSEN, F. & CHRISTENSEN, S. Seismic investigations of buried tunnel valleys on- and offshore Denmark	129
SANDERSEN, P. B. E. & JØRGENSEN, F. Substratum control on tunnel-valley formation in Denmark	145
KRISTENSEN, T. B. & HUUSE, M. Multistage erosion and infill of buried Pleistocene tunnel valleys and associated seismic velocity effects	159
STEWART, M., LONERGAN, L. & HAMPSON, G. 3D seismic analysis of buried tunnel valleys in the Central North Sea: tunnel valley fill sedimentary architecture	173
BUCKLEY, F. A. An Early Pleistocene grounded ice sheet in the Central North Sea	185
FIELDING, C. R., BLACKSTONE, B. A., FRANK, T. D. & GUI, Z. Reservoir potential of sands formed in glaciomarine environments: an analogue study based on Cenozoic examples from McMurdo Sound, Antarctica	211
MARTIN, J. R., REDFERN, J. & WILLIAMS, B. P. J. Evidence for multiple ice centres during the late Palaeozoic ice age in Oman: outcrop sedimentology and provenance of the Late Carboniferous–Early Permian Al Khlata Formation	229
BACHE, F., MOREAU, J., RUBINO, J. L., GORINI, C. & VAN-VLIET LANOË, B. The subsurface record of the Late Palaeozoic glaciation in the Chaco Basin, Bolivia	257
DOUILLET, G., GHIENNE, J.-F., GÉRAUD, Y., ABUELADAS, A., DIRAISON, M. & AL-ZOUBI, A. Late Ordovician tunnel valleys in southern Jordan	275
LANG, J., DIXON, R. J., LE HERON, D. P. & WINSEMANN, J. Depositional architecture and sequence stratigraphic correlation of Upper Ordovician glaciogenic deposits, Illizi Basin, Algeria	293
HIRST, J. P. P. Ordovician proglacial sediments in Algeria: insights into the controls on hydrocarbon reservoirs in the In Amenas field, Illizi Basin	319
GIRARD, F., GHIENNE, J.-F. & RUBINO, J.-L. Channelized sandstone bodies ('cordons') in the Tassili N'Ajjer (Algeria & Libya): snapshots of a Late Ordovician proglacial outwash plain	355
LE HERON, D. P. & CRAIG, J. Neoproterozoic deglacial sediments and their hydrocarbon source rock potential	381
Index	395
